MERRITT CHRISTIAN

Nordson Polymer Processing Systems

Mr. Merritt Christian joined Nordson in 2016 as Market Development Manager - Pelletizing (Americas). He entered the plastics industry in 1989, holding positions as technical service engineer and lab manager for Amoco, PolyOne, and DSM before becoming DSM's market and application development engineer. In 2010 Mr. Christian joined Sukano Polymers as operations manager and later vice president of technology. He also spent four years at SK Chemicals America, where he oversaw business development for Advance Polymer Solutions (Americas).

Merritt Christian served in the USMC and holds a BSc degree in Decision Sciences (Statistics) from Georgia State University and Certification in Advanced Business Development Techniques by the Rotterdam School of Management, Erasmus University.
