

Extrusion 2018

SEPTEMBER 18-20, 2018

Huntington Convention Center of Cleveland, Cleveland, Ohio

WES HOBSON

Dow Chemical Company

Wes Hobson is an Associate Scientist in Dow Chemical's Performance Plastics Technical Service and Development group. Wes has 22 years' experience in the plastics industry focusing on cast, blown and sheet extrusion. Wes has had many roles in Plastics TS&D including Fabrication Technology Leader where some of his responsibilities included vetting of new fabrication equipment and technologies to bring into Dow's Pack Studios laboratories, as well as traveling to customers to train employees on fabrication techniques, troubleshoot fabrication issues, or optimize process conditions to improve product performance. Currently Wes' role is Application Development Leader in the Industrial and Consumer Packaging group focusing on stretch film. Wes has a Master's Degree in Packaging Science from Michigan State University and is a member of ISTA and the Society of Plastics Engineers.
