

**Extrusion 2018**

SEPTEMBER 18-20, 2018

Huntington Convention Center of Cleveland, Cleveland, Ohio

# ROGER HULTQUIST

## Orbetron, LLC

Roger graduated in 1983 from Kansas State University with a degree in Electronic Engineering.

After finishing college he worked for companies in the consumer audio/video industry and as an engineer in the agriculture industry.

From 1987 through 2011 Roger worked for auxiliary equipment manufacturers that sell their equipment in the plastics, food, pharmaceuticals, chemical and other industries.

In 2011 he co-founded and currently serves as President of Orbetron LLC, where they design, engineer, and manufacture feeding and blending products not only for plastics but for the food, pharmaceuticals, and chemicals industries. Orbetron's feeding technology allow us to feed 1 gram/hour up to 20,000 pounds/hour.
