

**Extrusion 2018**

SEPTEMBER 18-20, 2018

Huntington Convention Center of Cleveland, Cleveland, Ohio

# SAM IULIANO

## Nordson Polymer Processing Systems

Sam Iuliano provides high-level technical support to customers, consulting with them to help improve performance in their extrusion and coating processes and alerting them to advances in die system technology. At the same time, he supports new technology programs, coordinating with all departments to develop innovations that meet emerging customer needs.

He serves as an advisor to Nordson EDI's engineering specialists and presents the results of the latest research on tooling and processing to the extrusion and converting industries.
