

SABINE SCHOENFELD

Coperion Corporation

Sabine holds a degree in Process Engineering from University of Stuttgart, Germany and has 28 years industrial experience.

She joined Coperion, then still Werner & Pfleiderer, immediately after completing her studies. During these 28 years, she worked in R&D, general process engineering and sales for small and medium-sized machines.

Sabine holds several process patents and has presented many technical papers at conferences worldwide.

Since 1st September 2018 she is responsible for Process Engineering and New Technology Development for Twin Screw Extrusion/Compounding at Coperion Corporation in Sewell / NJ.
