

Extrusion 2018

SEPTEMBER 18-20, 2018

Huntington Convention Center of Cleveland, Cleveland, Ohio

JIM ZINSKI

MachineSense

Jim joined MachineSense as President and Chief Operating Officer in March 2017. Prior to this, he was an integral part of product development and market alignment for MachineSense while managing pneumatic conveying equipment and central system controls as Vice President of Product Technology for Novatec, Inc. He has over 25 years of experience designing equipment and installed systems for plastics processors. He earned his MBA from Carnegie Mellon University, and his BSME from the University of Pittsburgh.
